Application forms for the McGill Major Fellowships are available to students currently enrolled at McGill from the GPSO Fellowships and Awards Web site at: www.mcgill.ca/gps under Fall competitions. Completed application forms and all supporting documents should be returned directly to the academic department. No documentation should be sent to the GPSO Fellowships and Awards Section. Applications for McGill Graduate Fellowships tenable beginning in September 2004 must be received by McGill departments during the fall semester of 2004 (check with departments for specific deadlines).

In addition to the McGill Major Fellowships for continuing graduate students, McGill University provides a number of Recruitment Fellowships. There are two types of Recruitment Fellowships. Some are awarded through a specific competition, such as the Richard H. Tomlinson Fellowships (section 4.1.1), and the Max Stern McCord Museum Fellowships (see section 4.1.3, "Discipline-specific Recruitment Fellowships"). Others, such as the Max Stern Recruitment Fellowships (section 4.1.2), and the Graduate Studies Fellowships (section 4.6) are allocated to selected academic departments for outstanding applicants seeking first admission to graduate studies at McGill during the following academic year. All applicants for first-time graduate admission are automatically considered.

tunities for supplementing fellowship income by employment are also scarcer since international students and their dependents are not normally permitted by Canadian immigration authorities to work outside the university. Immigration officials also require all international students entering Canada to provide proof that they possess sufficient funds to cover at least one academic year's stay in Canada as well as return fare home. McGill's International Student Advisor suggests that single students have a minimum of \$15,000 for living expenses, in addition to tuition and ancillary fees, for every twelve months of study in Canada.

Non-Canadian students can, nonetheless, draw on a considerable variety of fellowships and other forms of assistance. There are, to begin with, several large, multi-disciplinary programs specifically aimed at funding study in Canada by students from abroad. These include: the Canadian Commonwealth Scholarship and Fellowship Program; the Government of Canada Awards to Foreign Nationals; and the Technical Assistance Scholarships and Fellowships and Canadian Fellowship Program for French-Speaking Countries, funded by the Canadian International Development Agency (CIDA). Applications for all these programs must be made through the government of the applicant's home country, usually via the Ministry of Education. Applications sent by individuals directly to Canada cannot be considered.

All French citizens and a limited number of citizens supported by the following countries or governments may apply for an exemption of this type: Germany (a certain number of holders of Deutscher Akademischer Austauschdienst scholarships [DAAD]), Algeria, Andorra, Belgium (some members of the Communauté française and of the Flemish Community), Benin, Burkina Faso, Cameroon, Catalonia, China, Democratic Republic of the Congo, Republic of the Congo, Côte d'Ivoire, Egypt, Flemish Community, Gabon, Guinea, Israel, Lebanon, Luxembourg, Madagascar, Mali, Mauritania, Mexico, Niger, Panama, Peru, Rwanda, Senegal, Togo, Tunisia and Viet Nam. Students must apply to the government authorities (usually the Ministry of Education) of their home country at the time they apply for admission to the selected Quebec university. The foreign government authorities make the official recommendation of students to be exempted from higher fees. Further information can be found at www.meq.gouv.qc.ca/ens-sup/ens-univ/Coop.asp.

In addition, many of McGill's Graduate Fellowships, as well as many of the fellowships and prizes offered by various McGill departments and faculties, are offered without any restrictions concerning nationality. Unless otherwise specified in the description, fellowships listed in this brochure are open to students from all countries. International students should also note that the Graduate and Postdoctoral Studies Office makes it possible for some non-Canadian students to pay reduced foreign fees, by granting differential fee waivers. See section 4.5, "Differential Fee Waivers", as well as section 8, "Exchange and Travelling Fellowships".

Additional information on opportunities for financial assistance available to international graduate students and fellows can be found in the UNESCO publication "Study Abroad", available for consultation at the GPSO Fellowships and Awards Section, McLennan Library, as well as many national libraries around the world. "Study Abroad" can also be purchased directly from UNESCO distributors in member countries. The Canadian Bureau for International Education (CBIE) produces a free brochure entitled "Study in Canada", available on the Web at www.cbie.ca or upon request to: CBIE, 220 Laurier Avenue West, Suite 1100, Ottawa, Ontario K1P 5Z9 (613) 237-4820. International students may also find some general information regarding university study in Canada at various Canadian consulates and embassy offices abroad.

Deadlines for graduate and postdoctoral scholarships, fellowships and awards competitions from the Natural Sciences and Engineering Research Council (NSERC), Social Sciences and Humanities Research Council (SSHRC), Canadian Institutes of Health Research (CIHR), Fonds Québécois de la Recherche sur la Nature et les Technologies (FQRNT), Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC), and the Fonds de la recherche en santé du Québec (FRSQ) generally fall in early October. Thus students should begin planning their external applications as early as August. The applicant is responsible for fulfilling the application requirements, using the forms for the current year. If the application form for the current year is not available in August, the student should nevertheless proceed to draft a proposed plan of study and research, and discuss it with two faculty members, who can later serve as referees.

The following alphabetical listing of external fellowships indicates deadlines, application requirements and values as known to the GPSO Fellowships and Awards Section at the time of publication of this Calendar. It is the responsibility of the applicant to verify directly with the agency all application procedures and deadlines. In cases where the GPSO Fellowships and Awards Section maintains an information file on a particular external fellowship, an

7 Postdoctoral Fellowships

In accordance with McGill University's *Guidelines for Academic Units on Postdoctoral Education (Senate, April 2000)*, all internal and external postdoctoral fellowships with a value lower than the minimum financial support stipulated in the guidelines will be supplemented from sources other than the individual's personal means, including faculty or departmental funds, research grants or contracts or other allowable funds.

The guidelines stipulate that a postdoc must be assured of financial support, other than from personal means, during his/her stay in the University equivalent at the time of appointment to at least 90% of the lesser of either the federal (NSERC, SSHRC or CIHR) or the provincial (FQRNT, FRSQ or FQRSC) research council postdoctoral fellowship pertinent to his/her discipline.

Subject to change in regard of the value of the council fellowships, the minimum funding level in each disciplinary area in 2002-03 is:

- Social Sciences and Humanities: \$27,000
- Natural Sciences and Engineering: \$27,000
- Medical and Health Sciences: \$27,000

Individuals seeking postdoctoral funding in medical sciences may wish to contact the Research and Graduate Studies Office, McGill Faculty of Medicine, 6th floor, McIntyre Medical Building, 3655 Promenade Sir William Osler, which often receives postdoctoral funding information directly from external agencies.

An informal information site on postdoctoral fellowships and employment in the Sciences and Health Sciences has been compiled by the Association Bernard Gregory in France at www.abg.asso.fr under "L'emploi sur Internet". It provides links and information on the following areas: 90% of the Postdoctoral Fellowships in the Sciences and Health Sciences are funded by the Research Councils of the Federal Government of Canada.
